

STERILE SYRINGE PACKS

Sterile Multi-Packed BD Syringes

PACKAGING

Supplied in transparent, easy-tear, quad laminate pouches: VHP and alcohol impermeable and suitable for most transfer processes. All syringes are supplied with a 'tip protector' for protection during storage and transit.

QUALIFICATION

Manufactured according to BS EN ISO 13485:2003/12 which covers every aspect of sourcing, manufacturing, sterilisation and distribution of the sterile pack range. Detailed technical files are available.

TRACEABILITY AND STERILISATION

Full batch traceability and product certification. Sterilisation by validated gamma irradiation process and supplied with a consolidated certificate of conformity.

Double bagged to ensure an easy and rapid transfer cycle.

CUSTOM PACKS

We are happy to discuss any requirements you may have for custom made packs which incorporate other sterile ancillaries.

FEATURES	BENEFITS
Single batches of syringes	Simplified paperwork with increased efficiency
Consolidated Certificate of Conformity	Single document, easy to file and cross reference
Quad laminate pouch	Transparent, strong, easy to open, works for VHP and alcohol transfer process
100% tipped syringes	Secure in usage
Broad heat seal	Burst resistant device packaging
Large stocks held by Micronclean	Security of supply
Storage	Validated shelf life
Packed by Micronclean	Simplified supply chain with increased efficiency
